

The Committee is in Receipt of the Commission s letter dated April 15th, 2009 regarding the Amended July Monthly report filed on March 27, 2009. The Commission notes that the Committee s 2008 Amended May Monthly, Amended June Monthly and Amended July Monthly reports do not disclose any payments for payroll related items on Schedule B supporting Line 30(b). On the original filings of each of the referenced monthly reports, the Committee notified the Commission that all payroll related items on Schedule H4 supporting Line 21(a) were for employees that did not spend over 25% of their compensated time on federal activity. The Committee would like to further clarify that all employees during this period fell under this category and as a result did not qualify as federal election activity.
